Dear Sirs:—

There is going to be a great shortage on vine seeds this season on account of the extreme dry weather. We are large growers and are in position to know. We have just gone over our fields and find the Watermelon crop very short and many varieties of Musk Melon an entire failure. We estimate we will have a surplus of the number of pounds stated of the following varieties; and offer at low prices until sold.

lbs.	Wat. rington	490 Pride of Georgia.....	15c	Squash.
690 Black Diamond	12c	499 Seminole	17c	400 Warty Hubbard20c
690 Dark Leafing.....	15c	500 Snowbound	17c	500 Golden Hubbard.....20c
50 Hungarian Honey.....	20c	500 Sweet Mountain.....	17c	600 Silver.....20c
100 Arkansas Traveler.....	15c	150 Colorado Green Seed Clotted.....	13c	600 Fireball.....20c
600 Jants Tomato.....	12c	Musk Melon.		800 Mammoth Chieftan.....20c
620 Duke Jones.....	12c	500 Elephant.....	25c	200 Faxon.....20c
700 Knoch's Wonder.....	15c	500 Champion Market.....	25c	500 Perfect.....20c
600 Maryland Sprout.....	12c	600 Grand Rapids.....	20c	600 Perfect Gem.....25c
100 McVey's Sugar.....	15c			700 Essex Hybrid.....20c
500 Kelly's Gem.....	15c			

The seed we are offering will all be of high germination and of our own raising. Any Seedsmen who is going to be short on any of the varieties named, better place order at once. Prices will be much higher later, and these quotations are subject to change without notice.

We will take pleasure in booking orders subject to approval of samples. If you are not posted in regard to the melon crop, better investigate and take advantage of this low offer. Wire orders receive prompt attention.

Yours truly,

Quercett Seed & Plant Co.
